**New!** Jan Brett's Home Page  
<http://www.janbrett.com>  
Interactive activities from this author/illustrator of children's books.

**New!** Literature, Arts and Medicine Database  
<http://endeavor.med.nyu.edu/lit-med/lit-med-db/poems.html>

An annotated bibliography of prose, poetry, film, video and art resources on the medical humanities.

- New!** Luminarium  
<http://www.luminarium.org>  
A selection of major authors and works associated with English literature.
- New!** Outline of American Literature  
<http://usinfo.state.gov/products/pubs/oal/oaltoc.htm>  
Chronological list of American literature with links to information on eras, movements and authors.
- New!** Project Gutenberg  
<http://www.gutenberg.net>  
Online text library that provides access to more than 10,000 e-books.
- New!** The ALAN Review: A Multicultural Literature Bibliography  
<http://scholar.lib.vt.edu/ejournals/ALAN/spring96/mcdonald.html>  
Literature on multicultural American society.
- New!** The Norton Anthology of English Literature: Norton Topics Online  
<http://www.wwnorton.com/nael/>  
This online resource for The Norton Anthology of English Literature provides 28 topics for study and discussion.
- New!** The Texas Bluebonnet Books  
<http://www.suzyred.com/bbindex.html>  
Lists of books from 1995-2005 with links to teacher resources.

## Listings for: Language Arts - Reading & Visual Literacy

- New!** Bank Street's Guide to Literacy  
<http://www.bankstreet.edu/literacyguide/>  
Literacy strategies for readers at all levels.
- New!** From Now On: A Questioning Toolkit  
<http://www.fno.org/nov97/toolkit.html>  
Questions to encourage higher-order thinking and critical evaluation of information.
- New!** Learn to Read With Starfall  
<http://www.starfall.com>  
Stories to teach letters and sounds for emergent readers.
- New!** PBS Kids: Don't Buy It - Get Media Smart!  
<http://pbskids.org/dontbuyit>  
Encourages young people to think critically about media while becoming smart consumers.

**New!** The Literacy Center  
<http://www.literacycenter.net>  
Lesson plans abound at this literacy center.

## Listings for: Language Arts - Writing & Grammar

**New!** Grammar Gym  
<http://www.english.vt.edu/~IDLE/Gym2/>  
A short, easy course in grammar.

**New!** Guide to Grammar and Writing From Capital Community College Foundation  
<http://www.ccc.commnet.edu/grammar/>  
Review of the rules and applications of writing.

**New!** Implementing the Writing Process  
<http://www3.sk.sympatico.ca/fiss/newpage1.htm>  
Teachers can follow steps to implement the Writers' Workshop for students.

**New!** Random House: Sensitive Language  
[http://www.randomhouse.com/words/language/avoid\\_essay.html](http://www.randomhouse.com/words/language/avoid_essay.html)  
This site examines sensitive language in today's society.

**New!** The Big 6  
<http://www.big6.com>  
An information literacy model for teaching information and technology skills.

**New!** University of Ottawa: HyperGrammar  
<http://www.uottawa.ca/academic/arts/writcent/hypergrammar/grammar.html>  
An overview of grammar, including parts of speech, phrases, punctuation and more.

**New!** Word Central  
<http://www.wordcentral.com/index.html>  
A colorful site for students to find out information about words through fun, educational activities.

## Listings for: Math - Classroom Lessons & Materials

**New!** Fun Mathematics Lessons  
<http://math.rice.edu/~lanius/Lessons/>  
Fun math lessons from Rice University's Cynthia Lanus.

**New!** Math Solutions' Index of Classroom Lessons  
[http://mathsolutions.com/mb/content/publications/p\\_pub\\_13.html](http://mathsolutions.com/mb/content/publications/p_pub_13.html)  
Interesting classroom lessons from noted math teacher Marilyn Burns.

**New!** NCES Students' Classroom: Explore Your Knowledge  
<http://nces.ed.gov/nceskids/eyk>  
Collection of math quizzes that lets students in grades 4-8 solve problems, then

compare their scores with students in other countries.

**New!** New Zealand Maths  
<http://www.nzmaths.co.nz/>  
Lesson plans for statistics, algebra, measurement, geometry and problem-solving.

**New!** The Math League  
<http://www.mathleague.com>  
Delivers challenging materials to stimulate student interest and confidence in mathematics for grades 4-12.

## Listings for: Math - Games & Activities

**New!** BBC's ReviseWise Maths  
<http://www.bbc.co.uk/schools/revisewise/maths>  
Games, activity sheets, tests and step-by-step instruction in basic arithmetic skills, data handling, measurement and mental math for children 4-11.

**New!** Cyberchase: Games Central  
<http://pbskids.org/cyberchase/games.html>  
Interactive math games for students at different academic levels.

**New!** InfoUse's PlaneMath  
<http://www.planemath.com>  
Developed in conjunction with NASA, this site combines math activities and aeronautical themes.

**New!** National Library of Virtual Manipulatives for Interactive Mathematics  
[http://matti.usu.edu/nlvm/nav/grade\\_g\\_4.html](http://matti.usu.edu/nlvm/nav/grade_g_4.html)  
This site from NSF and Utah State University is loaded with 65 interactive math games and exercises that are tied to NCTM standards for grades 9-12.

## Listings for: Math - General Math Resources

**New!** Geometry in Motion  
<http://www15.addr.com/%7Edscher>  
Explore geometry by dragging points and lines of geometric figures to change curves and angles.

**New!** Purplemath  
<http://www.purplemath.com>  
Practical help with algebra in the form of lessons, links to other resources, homework guidelines and advice on productive study habits.

**New!** The Math Page: Trigonometry  
<http://www.themathpage.com/aTrig/trigonometry.htm>  
This site explains and illustrates concepts in trigonometry through 19 topics, including

the Pythagorean theorem and line values.

## Listings for: Math - Interactive References

- New!** A Maths Dictionary for Kids  
<http://www.amathsdictionaryforkids.com>  
Colorful and fun, this interactive math dictionary offers clear definitions and illustrations of more than 500 terms.
- New!** Harcourt's Multimedia Math Glossary  
<http://www.hbschool.com/glossary/math/>  
K-6 glossary of math terms with illustrations.
- New!** MacTutor History of Mathematics Archive  
<http://www-history.mcs.st-and.ac.uk/history>  
Mathematicians' biographies, history of math in various cultures, facts on the development of important math concepts, and more.
- New!** MathsNet Interactive Geometry Glossary  
<http://www.mathsnet.net/shape/glossary.html>  
Click on the appropriate word to view a small graphic depicting the term, or click to the crossword puzzle version of this interactive glossary.
- New!** Mathwords  
<http://www.mathwords.com>  
This interactive dictionary simply and clearly explains hundreds of math terms and formulas from algebra to calculus.
- New!** MathWorld  
<http://mathworld.wolfram.com>  
An interactive math encyclopedia detailing concepts such as geometry, algebra, calculus and number theory.
- New!** National Council of Teachers of Mathematics  
<http://www.nctm.org>  
Information for families and teachers on teaching, testing, math resources and more.
- New!** Webmath: Math for Everyone  
<http://www.webmath.com/index1.html>  
Online programs and explanations for everyday math, such as calculating tips and determining the sales price of an item.

## Listings for: Math and Science - Mathematics

<http://aleph0.clarku.edu/~djoyce/mathhist/mathhist.html>

Good Math history site that has timelines, chronology, regional math history and more.

<http://childparenting.miningco.com/msub2d.htm>

Good link page for sites aimed at K-6 math students.

<http://forum.swarthmore.edu/dr.math/drmath.middle.html>

"Ask Dr. Math." Lots of questions and answers covering all areas of mathematics. Students can also e-mail their own questions to Dr. Math.

<http://forum.swarthmore.edu/k12/mathtips/beatcalc.html>

"Beat the Calculator" is filled with mental tips to do quick arithmetic in your head. Gives shortcuts for squaring numbers, multiplication, division, addition, subtraction and so on.

<http://juliet.stfx.ca/people/fac/pwang/mathpage/math1.html>

Site with word problems for different grade levels (5-12). Each has a "Hint" that can be clicked to, as well as the answer and how it was reached.

<http://math.rice.edu/~lanius/frac/>

Site that teaches about fractals in terms that younger students can understand.

<http://ourworld.compuserve.com/homepages/mathman/>

Mathematically Correct. Good resource site for math education news and related articles.

<http://www-groups.dcs.st-and.ac.uk/~history/>

Good resource for mathematical history.

<http://www.ams.org/>

The American Mathematical Society site has lots of current news and issues for math educators.

<http://www.col-ed.org/cur/>

Tons of math lesson plans for K-5, intermediate, and high school math students.

<http://www.cs.uidaho.edu/~casey931/conway/games.html>

Pretty neat number-related games/puzzles that students can play with common items.

<http://www.eduplace.com/math/brain/>

A series of math brain teasers for different grade levels. Presented by Houghton Mifflin. There is a brain teaser of the week for which solutions can be submitted.

<http://www.ericse.org/>

Big online math and science resource database.

<http://www.learner.org/sami/>

Good resource for teachers. It has lesson plans, projects, and a free online Teacher Help Service.

<http://www.onlineschoolyard.com/default.asp>

Good link page for a number of different subjects, including math.

<http://www.planemath.com/>

This site combines math with aeronautics.

<http://www.sisweb.com/math/tables.htm>

Dave's Math Tables. Has various tables for all different types of math (algebra, trig, calculus, etc.). Good resource.

<http://enc.org/>

The Eisenhower National Clearinghouse for mathematics and science education.

<http://forum.swarthmore.edu/>

The Math Forum Home Page.

<http://forum.swarthmore.edu/dr.math/>

The Math Forum - Ask Dr. Math: an interactive Q&A.

<http://www-groups.dcs.st-and.ac.uk:80/~history/>

History of Mathematics includes mathematician biographies, chronologies and more. Cool Site!

<http://www.c3.lanl.gov/mega-math/>

Stories and activities for K-12 students, presented by Los Alamos National Laboratory.

<http://www.ee.ryerson.ca:8080/~elf/abacus/>

The Abacus: a Java-based virtual abacus.

<http://www.ncrel.org/msc/msc.htm>

The Midwest Mathematics and Science Consortium (MSC) provides Web sites for support.

<http://www.pbs.org/learn/mathline/>

PBS Mathline: elementary, middle and high school math projects.

<http://www.ncrel.org/ncrel/msc/msc.htm>

Math, science & technology education sites for school improvement

<http://www.pbs.org/mathline>

Middle School Math Project, PBS Mathline

<http://www.spss.com/StatsWeb>

Links to lists for statisticians, from SPSS, Inc.

<http://www.ti.com/calc>

Graphing calculators in math & science, by Texas Instruments

## Listings for: Math and Science - Biology/Chemistry

<http://www.astro.virginia.edu/~eww6n/chem/>

Eric's Treasure Trove of Chemistry, an excellent reference guide.

<http://www.beloit.edu/~bquest/>

The BioQUEST Curriculum Consortium supports educators interested in the reform of undergraduate biology.

<http://www.innerbody.com/>

Human Anatomy On-line is fun and easy to use, with nice graphics and anatomy lessons.

[http://www.nlm.nih.gov/research/visible/visible\\_human.html](http://www.nlm.nih.gov/research/visible/visible_human.html)

National Library of Medicine project producing anatomically detailed, 3D representations of the male and female human body.

## Listings for: Math and Science - Earth/Environmental

<http://quake.wr.usgs.gov/>

Earthquake info from the US Geology Service.

<http://www.edu-source.com/>

Edu-Source. Environmental Resources for Education, download dozens of free posters or read about suggested outdoor activities for kids.

<http://www.globe.gov/>

GLOBE, where students, teachers and scientists worldwide work together for environmental education.

<http://www.kids-commons.net/geotouch/GeoTouch.html>

The GeoTouch Project, an environmental education project involving schools worldwide

## Listings for: Math and Science - Earth/Space Sciences

Amazing Space Web-Based Activities

<http://amazing-space.stsci.edu>

This site covers everything from space topics to the Hubble telescope.

Grade level: E, M, H

(E=elem M=mid H=high P=prof)

Geographia Homepage

<http://www.geographia.com/>

In-depth destination guides to over 75 countries, on-line tourist offices, travel stories, and more.

Grade level: E, M, H

(E=elem M=mid H=high P=prof)

Great Plant Escape

<http://www.urbanext.uiuc.edu/gpe>

Led by the sleuthing of Detective LePlant, students grades 4 and 5 can go on a fun interdisciplinary adventure in botany.

Grade level: E

(E=elem M=mid H=high P=prof)

Kids Do Ecology

<http://www.nceas.ucsb.edu/nceas-web/kids>

Good educational outreach site for kids who are studying marine ecology and basic science.

Grade level: E, M

(E=elem M=mid H=high P=prof)

Middle School Earth Science Explorer

<http://www.cotf.edu/ete/modules/msese/earthsys.html>

This colorful and informative site provides sections on biomes, plate tectonics, cycles, geologic time, dinosaurs and more.

Grade level: M

(E=elem M=mid H=high P=prof)

#### National Geographic Education

<http://www.nationalgeographic.com/education/>

National Geographic's website for teachers, with lesson plans and online activities.

Grade level: E, M, H

(E=elem M=mid H=high P=prof)

#### PlanetPals Earthzone

<http://www.planetpals.com>

Alive with colorful cartoon characters, this interactive resource teaches about the planet earth, natural resources, ecology, and its care.

Grade level: E, M

(E=elem M=mid H=high P=prof)

#### Project Exploration

<http://www.projectexploration.org>

Discover and Explore the World Of Paleontology and Dinosaurs!

Grade level: E, M, H

(E=elem M=mid H=high P=prof)

#### Science Learning Network

<http://www.sln.org>

Colorful, award-winning site and all their resources, including online exhibits.

Grade level: M, H

(E=elem M=mid H=high P=prof)

#### Thursday's Classroom from NASA

<http://www.thursdaysclassroom.com/>

Provides a lasting connection between NASA's latest research and the classroom environment.

Grade level: E, M, H

(E=elem M=mid H=high P=prof)

#### Weather Channel

<http://www.weather.com/education/index.html>

For the weather-savvy educator, we offer lesson plans, teachers' guides and more, including additional on-line teaching resources.

Grade level: E, M, H

(E=elem M=mid H=high P=prof)

<http://www.enature.com/>

The complete nature and wildlife resource featuring the Audubon Guides to plants and animals.

<http://www.mamasminerals.com>

"If you want to learn more about rocks, fossils, or meteorites, this is the place."

<http://www.msss.com/>

Learn about the equipment that flies into space and what they do.

<http://www.teachspace.org>

"Lesson plans and other resources for teachers, with an emphasis on space exploration."

<http://www.bagheera.com/inthewild>

This site spotlights topics for the classroom concerning endangered species. A good source to learn about species that are close to extinction and ones that have already vanished.

<http://www.cnn.com/TECH/space>

CNN's Sci-Tech space page showcases numerous features, including extensive information, links to official NASA sites, interactive quizzes, and coverage of space science and exploration. Topics on this site can be used for discussion in classrooms.

<http://www.ucmp.berkeley.edu>

University of California at Berkeley's Museum of Paleontology site includes information on dinosaurs, as well as online exhibits, education and public outreach, catalogs, and paleontology resources.

<http://www.windows.umich.edu>

Designed for Beginner, Intermediate and Advanced, this site by the University of Michigan is a first rate trip through earth and space science by means of multimedia exhibits. Great for reference and broad concepts.

<http://www.math.fsu.edu/Science/math.html>

WWW Virtual Library on mathematics.

## Listings for: Math and Science - Science

<http://commtechlab.msu.edu/sites/dlc-me/zoo/>

The Microbe Zoo. Lots of interesting information about microorganisms.

<http://hum.amu.edu.pl/~zbzw/glob/glob1.htm>

Pretty cool site that lets you create maps to show average precipitation, snowfall, cloud cover and more.

<http://kidscience.miningco.com/>

Good general science resource site that has articles, experiments and more.

<http://liftoff.msfc.nasa.gov/kids/>

Kids Space has numerous activities and games relating to space. Kids can find out what they

would weigh on another planet and more.

<http://mars.jpl.nasa.gov/>

Fairly high-ed and technical, but a very informative site. Tells all the details of the Mars Pathfinder mission as well as the next three planned Mars missions. Lots of diagrams, images and technical specs.

<http://starchild.gsfc.nasa.gov/docs/StarChild/StarChild.html>

Activities that teach about space and the solar system.

<http://whale.wheelock.edu/>

Has curricula and activities for teachers and lets students track the movements of whales and other marine mammals based on global positioning satellites.

<http://whyfiles.news.wisc.edu/>

The Why? Files has interesting news and archived articles about different issues and topics in science.

<http://www.cellsalive.com/>

Cool biology site that has information on cells, bacteria, viruses and more.

<http://www.challenger.org/>

Resources and news pertaining to space science.

<http://www.chem4kids.com/>

Chem 4 Kids brings chemistry concepts and terms to a kid's level without dumbing it down.

<http://www.cs.ubc.ca/cgi-bin/nph-pertab>

A clickable periodic table of elements. Could be handy for chemistry students.

<http://www.discovery.com/>

The Discovery Channel's Web site has lots of interesting articles and activities for students and teachers.

<http://www.fi.edu/tfi/units/life/>

Living Things has lots of good general biology info and links to tons of related sites.

<http://www.flash.net/~spartech/ReekoScience/ReekoIndex.htm>

Reeko's Mad Scientist Lab has some cool experiments for kids.

<http://www.interaktiv.com/LUnE/>

Life, the Universe and Everything: good science link site (biology, astronomy, geology, etc.)

<http://www.kidshealth.org/index2.html>

Important health information for kids and parents.

<http://www.madsci.org/>

Mad Scientist Network is an interesting concept: people e-mail questions and one of a network of scientists who contribute will answer it. There are archives of questions, links and more.

<http://www.MonarchWatch.org/>

Talks about Monarch butterfly anatomy, migration patterns, etc. Also compares and contrasts anatomies of butterflies and moths.

<http://www.nationalgeographic.com/main.html>

National Geographic Online.

<http://www.pbs.org/deepspace/>

PBS' Mysteries of Deep Space.

<http://www.pbs.org/wgbh/nova/>

PBS' Nova Online deals with numerous science topics.

<http://www.seaworld.org/>

The official Sea World/Busch Gardens site has lots of good resources. We like the "Animal Bytes" section that has essential information on numerous land and sea animals.

<http://www.thetech.org/hyper/>

The Tech is an online interactive museum of technology.

<http://www.windows.umich.edu/>

Windows to the Universe is an excellent science site with info on Earth science, space science, historical figures in science and much more.

<http://www.yucky.com/>

Fun science site that doesn't hold back at all. Very yucky indeed and not for the weak of stomach.

<http://www.cs.cmu.edu/afs/cs/usr/mwm/www/sci.html>

Hands-On Science Centers Worldwide.

<http://www.fisheredu.com/>

Fisher Science Education Site Explorer lets you search 5,000+ sites.

<http://www.healthfinder.gov/>

Healthfinder is a consumer health and human services information web site from the government.

<http://www.naturalgas.org/>

The Natural Gas Information and Educational Resources site.

<http://www.nystromnet.com/>

Nystrom, publisher of globes, maps and atlases, puts their expertise to work on the Web.

<http://www.saddleback.cc.ca.us/div/mse/marsci/>

Marine Sciences, interactive projects and more.

<http://www.senn.com/>

Science and Engineering Network News, links to online journals, software archives, image databases and more.

<http://www.ucmp.berkeley.edu/diapsids/dinosaur.html>

The Dinosauria: dispelling dinosaur myths.

## Listings for: Miscellaneous - Search Engines

AreaConnect.com

<http://www.AreaConnect.com>

Users can access local information sources and find concise information about their own US city or others - including city and regional specific news, demographics, jobs, web sites and more.

Grade level: E, M, H, P

(E=elem M=mid H=high P=prof)

<http://www.ajkids.com/>

The kids' version of the popular answer site.

<http://www.askjeeves.com/>

Search the Web in plain English. Ask Jeeves is a great place to find answers online.

<http://www.eduhound.com/>

"Everything for Education K-12. EduHound features an up-to-date database of over 15,000 education related Web sites and resources."

<http://www.altavista.com>

Alta Vista is consistently one of the largest index databases. There is a wide range of power searching tools. It shares listings with LookSmart.

<http://www.directhit.com>

Dubbed the popularity engine, DirectHit refines your search results by first showing the most popular sites that have been viewed by other people. It works with other search engines such as HotBot, Lycos, LookSmart and MSN Search.

<http://www.dogpile.com/>

Dogpile searches numerous search engines to find exactly what you're looking for.

<http://www.education-world.com>

Particularly rich in curriculum ideas for teachers of K-12 schools. Nonetheless, there are links for every aspect of education at all levels.

<http://www.familywebfiles.com>

Another nice family-oriented search engine. Presented in English or Spanish language.

<http://www.northernlight.com>

Northern Light has the largest index of the Web that is organized by subject clusters. It features special collections of documents not found in ordinary searches. Note that some are pay-per-view.

<http://www.searchenginewatch.com>

Learn the basics of search engines; what they are, how they operate, whom they serve. Also, you will find tips and reports of myriad search engines' performance and competence.

<http://www.searchopolis.com/>

A fun interface spices up this very effective search tool. The site also features curriculum for all major topics as well as a great set of reference tools, including a great online dictionary and thesaurus.

<http://rex.skyline.net/>

Searches for keywords in several distinct subject areas simultaneously.

<http://www.555-1212.com/>

Telephone directories for U.S. and foreign listings.

<http://www.altavista.digital.com/>

AltaVista searches over 31 million pages.

<http://www.brint.com/>

Management, business and technology search engine.

[http://www.educationindex.com/education\\_resources.html](http://www.educationindex.com/education_resources.html)

Good education-specific search engine.

<http://www.excite.com/>

Excite organizes search results by summary.

<http://www.highway61.com/>

A pretty good "meta-search" search engine.

<http://www.itools.com/find-it/find-it.html>

Find-It lets you search the World Wide Web, Usenets, Software Libraries, etc.

<http://www.lycos.com/>

Lycos' education section has Education News, Top Sites and a Community Guide.

<http://www.mapquest.com/>

Cool search engine that will draw a map for any address in the U.S. Also gives directions, etc.

<http://www.metacrawler.com/>

Searches several engines.

<http://www.planetoasis.com>

Excellent search engine for kids. Very cool-looking, graphical interface.

<http://www.shareware.com/>

Search for shareware on the Web.

<http://www.studyweb.com/>

Searches over 58,000 education-related sites.

<http://www.webcrawler.com/>

Good general search engine with a worthwhile career/education section.

<http://www.whatis.com/>

Whatis explains information technology terminology, including just about any word or acronym you can imagine.

<http://www.wwwomen.com/>

Internet search engine aimed at women.

<http://www.yahoo.com/>

The Old Reliable is always good for general searches.

<http://www.yahooligans.com/>

Yahoo for kids.

<http://www.bigbook.com/>

BigBook indexes businesses.

<http://www.iTools.com/research-it/research-it.html>

Research-It! is perfect for researching in many different fields.

<http://www.search.com/>

Search.Com.

<http://www.switchboard.com/>

Switchboard is a people and business directory.

<http://www.w3.org/vl/>

The World-Wide Web Virtual Library is a distributed subject catalog on a myriad of topics, bigger than you can imagine.

<http://555-1212.com/>

Telephone Directories, U.S. & foreign

<http://galaxy.einet.net>

Galaxy, its guest editors offer wide-ranging info on listings

<http://www.albany.net/~wcross/all1srch.html>

Many search engines

<http://www.infoseek.com>

InfoSeek, a commercial engine that offers free personal news service

<http://www.mckinley.com>

McKinley Internet Directory, sites reviewed & rated by humans

<http://www.opentext.com>

OpenText, an index available in English & Japanese

<http://www.spectracom.com/islist/>

"Yanoff List" index

<http://www.whowhere.com/>

WhoWhere?, an e-mail directory for individuals & businesses

<http://www.yahoo.com/search/people>

Yahoo's People Search

<http://www.yellow.com/>

Yellow Pages to the Web

## Listings for: Miscellaneous - Reference

Britannica.com

<http://www.britannica.com/>

Britannica.com - includes the complete Britannica encyclopedia, a searchable guide to the Web's best sites, articles from the top magazines, editorials, news and special features.

Grade level: M, H

(E=elem M=mid H=high P=prof)

Fact Monster

<http://www.factmonster.com/>

The Infoplease Kids' Almanac is the largest free reference site just for kids! Get homework help & find facts on thousands of subjects, including sports, entertainment, geography, history, biography, education and health.

Grade level: E, M, H

(E=elem M=mid H=high P=prof)

LibrarySpot

<http://www.libraryspot.com/>

LibrarySpot is the library and reference information portal of the Web. Find top dictionaries,

encyclopedias, newspapers, maps, genealogy tools and much more in one user-friendly spot.

Grade level: E, M, H

(E=elem M=mid H=high P=prof)

Refdesk.com

<http://www.refdesk.com/>

This portal site contains almanacs, books, dictionaries, encyclopedias, news, maps, and more!

Grade level: E, M, H

(E=elem M=mid H=high P=prof)

Thesaurus.com

<http://www.thesaurus.com/>

New words, new worlds. Free online Roget's Thesaurus of English words and phrases.

Grade level: M, H

(E=elem M=mid H=high P=prof)

WorldAtlas.com

<http://www.worldatlas.com/aatlas/world.htm>

Find the answer to your geography, homework, or map questions.

Grade level: E, M, H

(E=elem M=mid H=high P=prof)

<http://kids.infoplease.com/>

"Get homework help and find facts on thousands of subjects, including sports, entertainment, geography, history, biography, education, and health."

<http://www.americaslibrary.gov/cgi-bin/page.cgi>

"From the Library of Congress, this site was designed especially with young people in mind, but there are great stories for people of all ages."

<http://www.biography.com/class/index.html>

"The popular show, Biography on the Web. It's your opportunity to get even more personal with 15,000 biographies."

## Listings for: Miscellaneous - Cool Sites

<http://learning.turner.com/>

Turner Adventure Learning Site, virtual field trips & more

<http://netvet.wustl.edu/e-zoo.htm>

Electronic Zoo, a large site covering animal-related resources

<http://volcano.und.nodak.edu/>

Volcano Homepage meltdown!

<http://www.cern.ch>

CERN, the lab in Switzerland where the Web began!

<http://www.cincyzoo.org>

Cincinnati Zoo - plants & animals, plus conservation facts & a weekly contest

<http://www.cnn.com>

CNN's Web site, always current news
